Addendum No. 2

ITB No. 21-24
POLYALUMINUM CHLORIDE FOR THE WATER TREATMENT PLANT

September 9, 2021

ITB #21-24 is hereby amended as follows:

1. Below are questions received and corresponding answers:

   A. Question: Can you tell me which polyaluminum chloride product from Chemtrade you are using? We received the bid, but it mistakenly mentions Cairox as the type and that is a potassium permanganate product not a PACl.

      Answer: The product we are currently using is supplied by Chemtrade Chemicals US, LLC. The product is hyper + ion 6865. Part 1 of the bid summary, note #1, notes to suppliers, replace Cairox with Chemtrade Chemicals hyper + ion 6865.

2. All other conditions remain in full force and effect.

3. If a Bid has been submitted and anything in this Addendum causes the bidder to change the item offered or to increase or decrease the Bid price, the new price and/or changes will be inserted below:

   _____________________________________________________________________________

   _____________________________________________________________________________

4. All bidders under this Invitation to Bid are kindly requested to acknowledge receipt of this Addendum on page 12 of the Bid Form.
