(s) **Dwelling, multi-family.** In approving the site plan for a multifamily development, the county shall determine that the streets, driveways, parking areas and other public and private drives shown on the plan meet the following standards:

1. Multi-family developments with more than 50 units must have access to a collector or arterial street.
2. Private streets may be permitted, provided such streets meet the standards of public streets as specified in chapter 332, article I.
3. Adequate provision is made for vehicular traffic to and from the premises and for vehicular traffic and pedestrian traffic to and from the proposed buildings, structures and parking areas on the premises; including firefighting and police equipment and personnel, ambulance service, garbage collection service, postal service, delivery service and other public and private services and individuals who would require access to the premises.
4. Insofar as practicable, off-street parking facilities shall be grouped in bays, either adjacent to streets or in the interior of blocks; and no off-street parking space shall be more than 100 feet, by the most direct pedestrian route, from a door of the dwelling unit it intends to serve.
5. Multifamily developments may not abut a single-family residential zoning district on more than 75 percent of the boundary of the site.
6. Not more than 50 percent of the lot area shall be occupied by buildings.
7. Open space and recreation.
(8) Multi-family residential developments with more than 50 dwelling units shall provide a minimum of 400 feet of open space or outdoor recreation per dwelling unit.

(9) A residential sprinkler system for the suppression of fire shall be installed in each residential unit in all multi-family dwellings permitted in the county. No waiver or variance to this requirement shall be permitted.

(t) Dwelling, single-family zero lot line.

(1) Adjacent interior lots on the block face shall be developed as zero lot line dwellings.

(2) The side yard requirement may be eliminated on one side of each lot. The remaining side yard shall maintain the minimum side yard dimension of the zoning district.

(3) Each lot shall meet the minimum area requirements of the zoning district.

(4) Easement agreements shall be recorded which allow maintenance and access for that side of the dwelling adjacent to the property line.

(5) When the minimum side yard is used, a privacy fence at least six feet high is required between buildings.

(6) See Sec. 206-7. - MRU (mixed residential uses) district for further standards.
