Addendum No. 2

**RFQ No. 22-20
PREQUALIFIED FIRMS TO PROVIDE ON-CALL ENGINEERING SERVICES FOR
ROCKDALE COUNTY WATER RESOURCES**

May 27, 2022

RFQ #22-20 is hereby amended as follows:

1. Below are questions received and corresponding answers:

- A. **Question:** If a firm decides to submit on more than one of the seven categories, would that firm still be limited to the page limit for all categories or should the firm submit a proposal (SOQ) for each category?

Answer: The 50-page limit applies to all categories. We are modifying this requirement so that resumes are NOT counted towards the 50-page limit.

- B. **Question:** With May 30, 2022, being a holiday and with questions due on June 9, 2022, would the County consider extending the proposal deadline by at least two weeks?

Answer: The current twenty-five (25) contracts in place for this RFQ expire on July 23, 2022, so we are unable to extend the deadline for questions and the due date at this time. With the holiday being on a Monday, it will still leave over a week for questions to be asked and answered.

- C. **Question:** Page 10, Tab 3: Firm Qualifications – “Include three (3) projects per category for which your firm wishes to be qualified.” – Can we include more than 3 projects?

Answer: Yes you may.

- D. **Question:** Page 11, Tab 5: Quality of Service – “Provide a statement that demonstrated the quality of service provided to clients and provide a minimum of four references” The Reference form on page 16 only includes space for 3 References. Please advise if 3 or 4 References should be included.

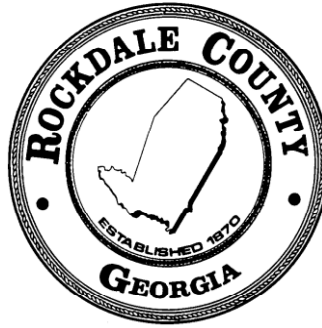

Answer: Three (3) References should be included.

- E. **Question:** Should the categories be numbered? On page 2, paragraph 1, the categories are numbered 1 thru 7, (i.e., 1) Water and Wastewater Treatment Engineering; 2) Water Distribution, etc.) On Page 13 there are nine categories, and the categories are not numbered, and they are listed under the main header Water Supply, Water and Wastewater Treatment Engineering.

Answer: There are seven (7) Categories as identified on page 2. Category One, “Water and Wastewater Engineering” shall include Water Supply, Water and Wastewater Treatment projects.
