

STREET LIGHT DISTRICT

The following policy shall apply for implementation of Rockdale County Code Section 4-1006 Street Light Districts:

1. Developers of new subdivisions shall be given the opportunity to have the entire subdivision included in a Street Light District and shall submit this request for consideration with preliminary plat of subdivision. Each phase or unit of large subdivisions may be a separate Street Light District, as final plats are approved by the Planning Commission.
2. Entire existing subdivisions should be included as one Street Light District.
3. In the event an existing large subdivision has been developed in units or phases, each unit or phase may be a Street Light District.
4. Only when extreme and unusual circumstances exist would a single street, or part of a subdivision unit be considered for a Street Light District. It is suggested that the extreme or unusual circumstances be brought to the Chairman's attention immediately and before petitions are signed. The Chairman shall make the determination and advise the Director of Public Services and Engineering if those circumstances presented warrant deviation from item #3 above.
