**Addendum No. 1**

**ITB No. 23-16  
SUPPLY & INSTALL LIGHT PACKAGES ON  
VARIOUS TYPES OF EMERGENCY VEHICLES**

**May 2, 2024**

ITB #23-16 is hereby amended as follows:

**1. Below are questions received and corresponding answers:**

**A. Question:** Each drawing says either RED/WHITE lights or AMBER lights. Is this accurate? Please confirm there are no BLUE/WHITE lights in this bid.

**Answer:** Correct. It can and will vary between red, amber, white and combinations of those 3. NO BLUE.

**B. Question:** There are no marked consoles listed on any drawing. Is it safe to assume that hand-held siren/light controller would be best for each drawing?

**Answer:** No. The hand-held siren/light controller would only be needed for Light Packages #1 and #2 because of the need to control the light pattern display with Intelligent Light Systems. Light Package #3 only requires a handheld mic for using the PA system. Light Package #3 is not an "Intelligent" light system and therefore no programming/controlling the light pattern. It is just an "On/Off" switch.

**C. Question:** How many vehicles in each category do you anticipate?

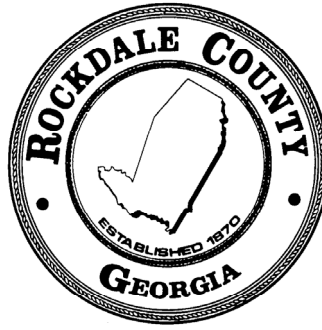

**Answer:** For 2024, we will have 11 vehicles total but I am unsure how many in which category.

**D. Question:** Can you provide how many vehicles annually have the light packages installed for the county?

**Answer:** 10-15 on average.

BOARD OF COMMISSIONERS

OSBORN NESBITT, SR., CHAIRMAN  
Sherri L. Washington, Commissioner Post I  
Dr. Doreen Williams, Commissioner Post II

DEPARTMENT OF FINANCE  
MICHELLE IRIZARRY, CFO  
TELEPHONE: 770-278-7555  
FACSIMILE: 770- 278-8910

**E. Question:** Are you able to provide specific make/models for the vehicles within each package series? (For instance, Large SUV, Medium SUV, Sedan, Truck) We ask because the parts are specific to manufacturer models/years.

**Answer:** The Makes/Models we regularly use vary depending on availability year to year. Our first choice is generally Ford, but we have used Chevy and Ram in the past. The following are the ones we primarily use:

**Large SUV: Ford Expedition/Chevy Tahoe**

**Medium SUV: Ford Explorer**

**Sedan: Ford Escape**

**Truck: Ford F150/F250/F350 single and double cab, Chevy 1500/2500/3500 single and double cab, Ram 1500/2500/3500 single and double cab.**

**F. Question:** What color lights are needed for each package series? (#1-9 on Bid Summary)

**Answer:** Light Package #1 and #2 are red and white lights. Light Package #3 is amber and white lights.

**G. Question:** What is the minimum number of vehicles you anticipate will need transport at any one time?

**Answer:** The minimum would be 1. The maximum would be however many vehicles we have ready for light packages at a given time.

2. All other conditions remain in full force and effect.
3. If a bid has been submitted and anything in this Addendum causes the bidder to change the item offered or to increase or decrease the bid price, the new price and/or changes will be inserted below:
